Dowlen In "TEXAS" This Year

Two former members of the New York City Center Opera Company will be appearing in "TEXAS" when the musical production opens in Palo Duro Canyon State Park June 30.

Glenn Dowlen, Jr., son of Mr. and Mrs. Glenn Dowlen of Canyon, will appear in the show as will Andrew White of Waco. Dowlen is chairman of the vocal department at Oklahoma State University. He has been at OSU two years.

He received his bachelor of music degree from the University of Texas and a master's degree from Louisiana State University.

The baritone began his formal training with Chase Baramoe at the University of Texas.

Dowlen has also appeared on several National Broadcasting Company television productions.

Happy Accepts Canyon Couple

Tommy Clay Thompson and his bride, the former Miss Linda Prichard, will complete their school year at Happy.

They were dismissed from Canyon School last week under a rule banning newly married students. The rule, recently revised, stipulates that students who marry must withdraw from school for the remainder of the semester during which the marriage takes place.

Tommy, 18 years old, was president of the senior class and lacks only a half credit in economics being able to gradu-

ate. His wife, Linda, 15, is a high school sophomore.

"My objective is to help the kids a little," said Sam Bryan, superintendent of Happy schools.

He said he checked with Canyon school officials before making the decision to let the youngsters enter Happy school.

C. S. Thompson, father of Tommy, said Tommy and Linda will be able to finish work for the current school year at Happy. Linda is the daughter of Mr. and Mrs. Ira G. Prichard.

J. N. Perkins, assistant principal of Canyon High School, said he tried to help the youngsters arrange for correspondence courses from Texas Tech.

"They've tried to help and we appreciate it," Mrs. C. S. Thompson said of Canyon School officials.

Tommy will receive his diploma at the end of the spring semester and his bride will complete her sophomore year, according to C. S. Thompson.

"He (Tommy) is going to work right here with me and go through college," said Tommy's father. The Thompsons operate Buffalo Cleaners and Thompson is a teacher in the Amarillo School System.

Linda will be eligible to enter (See HAPPY, Page 3)

Band Sells News Subs

Canyon High School band students conducted a subscription drive in cooperation with The Canyon News Tuesday evening.

Band students sold approximately 250 subscriptions during the drive. The commission on both new and renewal subscriptions will be presented to the band projects fund.

The drive was concluded with a social hour at the school which was sponsored by the Canyon Band Parents Association.

Debate Building

Committee Favors New JHS Facility

Whether to build a new junior high school building or remodel the old one was debated Tuesday night at a joint meeting of a citizens study group and the Canyon school board.

The majority of those who spoke were in favor of a new building.

If the new building is constructed, the main building and the south annex will be razed. The main building was constructed in 1923 and the south annex was built in 1928.

The north annex, built in 1954, will be tied into the new building.

Cost of constructing a new building has been estimated at \$1,200,000. Cost of remodeling has been estimated at \$750,000.

"We think we have estimates that will hold," said architect Clayton Shiver. Shiver admitted that because of termite damage the cost of remodeling could be considerably higher than the estimate. He said one gym floor has been "eaten up" by termites.

Shiver, whose firm has been employed by the school, said the two annexes be retained and a new building be tied to them.

"You never wind up with what you want in remodeling," a woman member of the committee declared. "And it almost always costs more than you thought it would. We need a facility for junior high school

CHS Announces Honor Students

Alan Demus has been named valedictorian of the 1967 graduating class of Canyon High School.

Named salutatorian was Chris Kuykendall.

Demus, son of Mr. and Mrs. Herman Demus, had a grade point average of 98.225 for his high school career.

Kuykendall had a grade point average of 97.7368. He is the

major in mathematics. The scholarships include a grant of \$1500 a year for four years of study from the National Merit Scholarship Fund, a \$200 per year grant through the Educational Opportunities Grant of the United States government; and an \$850 per year Prize Scholarship from Rice University, which was one of ten such awards given by the school.

Demus was voted "most likely to succeed" by fellow students this year and last week received a first place in the state University Interscholastic League science contests.

He also represented CHS in the one-act play contest at state, where he had the role as the

Both Demus and Kuykendall will address the graduating seniors at commencement exercises May 26 at the Canyon High School auditorium. Baccalaureate services for seniors will be conducted May 21 at 8 p.m. in the high school auditorium.

Active in all phases of school life, Demus has been awarded three consecutive scholarships this spring for study at Rice University, where he plans to

This year, Demus was selected to attend a two week science seminar in Australia. The Australian seminar participants were selected by President Johnson.

CPD Chief Ticketed

What does a police officer do when he witnesses the chief running a stop sign?

In such a case last Saturday, Patrolman Dean Butcher saw Chief L. D. Caldwell run a stop sign at 6th Ave. and 4th St. so he issued a citation.

Caldwell, who was not on duty at the time, later pled guilty to the charge before Municipal Judge Burney Slack, who fined him \$5.

"When we give tickets for violations," Caldwell said, "we give them to everybody -- no one is exempt."

Cotton Vote Set Monday

Cotton farmers in Randall County will vote Monday to decide whether they want to be able to sell or lease their cotton allotments outside the county.

The ballots on the referendum may be returned by mail or delivered to the county ASCS office by Friday, according to Donald F. Lloyd, ASCS office manager.

The only question to be decided, Lloyd said, is whether upland cotton allotments may be transferred during the next two years to farms which are owned or controlled by someone else and located in other counties.

Such transfers may be made by sale or lease, he continued, but in no case may transfers be made outside the state.

An affirmative vote by at least two-thirds of the county's cotton farmers who vote will permit such transfers for the (See COTTON, Page 3)

Courthouse Said To Be A Firetrap

Clayton Shiver called Randall County Courthouse a dangerous fire trap Monday and advised commissioners court to construct a new building rather than remodel.

Shiver is a member of the architect firm of Shiver and Megert of Amarillo hired to look into the possibility of remodeling the fourth floor of the present courthouse.

Courthouse officials say more floor space is badly needed and commissioners court had hoped to remodel the presently unused fourth floor to provide that space.

Shiver said remodeling would cost about \$25 per square foot. "You can build cheaper than you can remodel," he declared.

Connally Kills WT Regent Bill

Governor John Connally has vetoed a bill which would have provided a separate board of regents for West Texas State University.

West Texas State will continue to operate under the control of the Board of Regents of State Senior Colleges along with six other colleges under the same board.

Dr. James P. Cornette, president of West Texas State, Tuesday expressed surprise and disappointment at hearing of the governor's veto.

"I had no forewarning that the governor would veto the bill," Dr. Cornette stated.

"Our relationships with our board controlling seven institutions have been excellent, and I am sure will continue to be excellent, and we can function quite well in that pattern," Dr. Cornette continued.

"I thought, and still think, that West Texas State University is now a sufficiently large and complicated institution that, particularly considering its location so far from the center of Texas, it can best be served by a separate board devoting all its time to the affairs of this institution."

Cornette pointed out that West Texas State University is located almost 500 miles from Austin.

"We would be exceedingly pleased to have the same nine people that now constitute the present Board of Regents of State Senior Colleges to be the board of regents of West Texas State University," declared Dr. Cornette. "We like the people fine. We'd just like to have all of their attention and time."

The architect said the courthouse has wooden floors and weight bearing walls.

"In my opinion this building is antiquated," Shiver said of the main portion of the courthouse building. The main courthouse of which Shiver was speaking was built in 1908.

South annex of the building was constructed in 1956 and houses the sheriff's department and other offices. It also houses the county jail, which is approved for holding federal prisoners and is one of the most modern jails in Texas.

Shiver said the old building would "burn like tinder" if it ever catches on fire. Construction (See COURTHOUSE, Page 3)

New Store Building Underway

Construction has been started on a new women's fashion store at 1001 1/2 Twenty-third street.

The store will be operated by Mrs. Della Henry (Mrs. Bob Henry) and Mrs. Ramona Elliott (Mrs. Ross Elliott).

The building will be of French Provincial theme and the builder is Tom Foster of Canyon. Clayton Shiver and Russell Megert are architects for the new building. Color scheme will be red and gold.

The new store will have 2100 square feet of floor space. August 1 is the target date for completion. Opening will be about mid-August. It will be known as de'ons.

"We are going to handle some of the best fashion lines," declared Mrs. Elliott.

Mrs. Elliott is a native of Happy and a graduate of Happy High School. After completion (See NEW, Page 3)

The separate board bill was sponsored by Senator Grady Hazlewood of Canyon.

In his veto message to the legislature Governor Connally said:

"No data have been presented which alter my convictions that we now have too many governing boards, not too few, for our colleges and universities."

Connally recalled in his veto message that his 1965 legislation (See CONNALLY, Page 3)

Tornado Smashes Cow Shed

A tornado funnel dipped from the clouds 12 miles southeast of Canyon Friday afternoon lifting the roof from a small cattle shed.

Stanley McDonough, ranger with the Texas Parks and Wildlife Department, said the tornado touched down on property at Washington Street and Hunkate Road. The shed is owned by Roy McGee.

McDonough said the funnel traveled about 100 yards on the ground toward the east, then lifted back into the clouds.

A stack of hay adjacent the shed was not moved by the funnel.

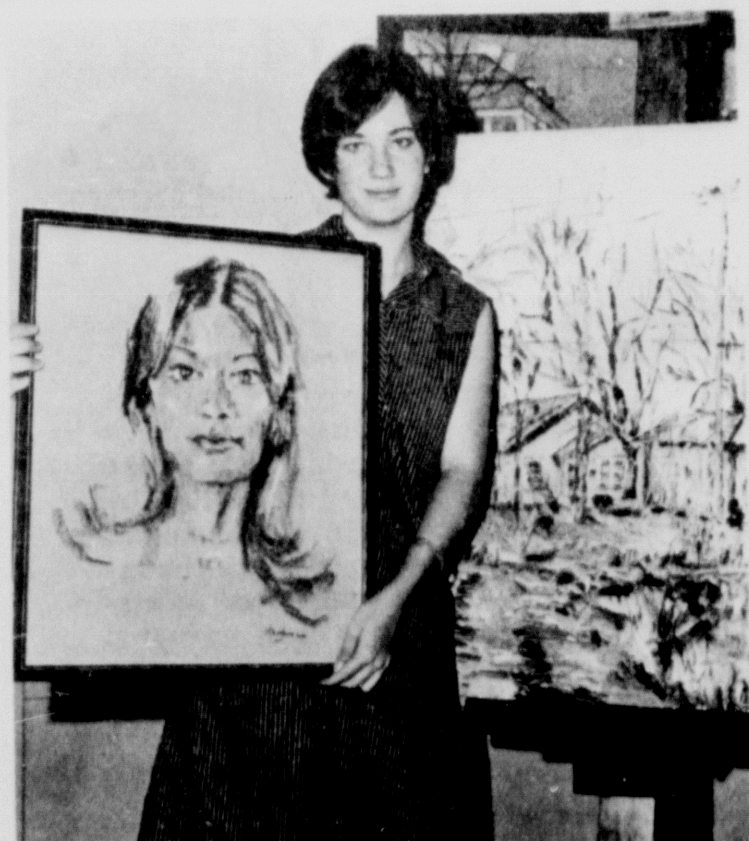

Miss Hughes Wins Award

Martha Hughes has been awarded a \$100 regional division Hallmark honor prize from the Hallmark-Scholastic National Art Contests in New York City for the third year in a row.

Miss Hughes, daughter of Mr. and Mrs. Jack Hughes of Canyon, received the national prize of \$100 for her art work and this year's prize will include a scholarship to study art at Arizona State University in Tempe. The scholarship was received by Miss Hughes from the university in connection with the national contest.

A senior at Canyon High School, Miss Hughes first became interested in art as an elementary student. She currently studies art under Mrs. Royal Brantley at Canyon High School and is also studying in the field of still life with Lee Simpson in Amarillo. Previously, Miss Hughes had studied portraiture under Ramon Froman at Cloudcroft, New Mexico and oils with Dorothy Parsons and Zudie Edwards, both of Amarillo.

FROM THE

CANYON RIM

By Troy Martin

Thomas Ray Vessels says he never thought of burglary and stealing as injuring the victim. Vessels, who was convicted here last week on a charge of assault with intent to murder without malice and given a three-year prison verdict, says he has been a burglar and thief since his teens.

He was given the death sentence in Pampa recently on a rape conviction. That case now is on appeal.

Yet, Vessels says he has never meant to hurt people.

"I'm just a thief and a burglar," he declared. "I don't want to hurt anyone."

He appeared shocked when he was told that even the victims of his thefts and burglaries were injured when he stole from them.

"I never thought about it that way," Vessels declared shaking his head.

People like Vessels may be objects of pity but they cannot be tolerated by society.

This day and time there is all too much thought given to protecting the criminal and very little, if any, thought given to the plight of the victim.

There should be some kind of bill of rights for the victims of crime.

The state goes to great lengths to protect the accused and the rights of the victim are often forgotten. In murder cases the good name of the victim is often put in jeopardy.

I think punishment is a deterrent to crime. The severity of punishment is not as great a deterrent as is the certainty of

punishment.

I was disappointed, to say the least, when Governor John Connally vetoed the bill which would have given West Texas State University a separate board of regents.

I don't see how the governor could have conscientiously vetoed it. John Connally declared right here in Canyon during the 1962 campaign that he was for a separate board of regents for WT.

Well, I guess that was just campaign talk.

I want to congratulate Canyon Police Chief L. D. Caldwell. Last week Chief Caldwell lectured his men on giving tickets.

"Treat them all alike," he admonished. "If a violation is serious enough to give a ticket then give a ticket—even if it's me."

Saturday afternoon the chief coasted through a stop sign. One of his men saw him. "Did you mean what you said?" the officer asked.

"I sure did," Caldwell told him.

There's no one exempt in Caldwell's town. I appreciate the chief's attitude.

I heard Los Angeles Mayor Sam Yorty about sum up my feelings about Vietnam the other night on television.

Yorty said those who fear escalation and would sacrifice our soldiers' lives to prevent it merely fear for themselves. They are willing to let our

soldiers die because the enemy has sanctuary in North Vietnam rather than risk their own well being by permitting our forces to attack that sanctuary.

Yorty also pointed out that our forces in Vietnam have probably kept Indonesia from going communist.

I am for scrapping the 1923 portion of the Canyon Junior High School Building and starting from scratch to build a new junior high structure.

We'll be out a third more money but let's not forget that Canyon is more or less a bedroom city. Excellent school facilities will pay in the long run rather than cost because they will help to attract enough more taxpayers to Canyon to take care of the difference in cost.

If we invest \$750,000 in remodeling an old building, we're still going to have an old building when the remodeling is done.

Canyon is the education capitol of the Panhandle. Let's keep it that way.

I had rather wait a year or so on doing anything than to pour three quarters of a million dollars into the old building and still be stuck with a 1923 model junior high school.

PUBLIC SCHOOL LEGISLATION

(Editor's Note: This article is one of a series on Canyon Schools. It is written by a member of the faculty.)

Today we will discuss state legislation on education and how it might affect the Canyon Public School System. Several hundred bills on education have been introduced into the legislature this year.

Many concern only one or a very few schools. However, some are statewide in scope and could affect the Canyon Schools a great deal. Here are some points concerning several of the bills now receiving publicity over the state. One bill, having to do with increased payments to retired teachers, has already been passed and signed into law. The necessary funds are available in the retirement system and will not require additional money from the state.

The Professional Consultation Bill is merely a permissive bill to provide a legal basis for consultation on matters of educational policy and conditions of employment between teachers, administrators, and the school board. A few schools in Texas already have such policies but the legality of such policies is in doubt. Several other school systems in Texas plan to enter into consultation agreements if the legislature gives its approval.

The Canyon School Board already provides its teachers with up to 30 days of sick leave. A statewide sick leave bill would not affect the Canyon teachers to as great an extent as it will the many teachers in school districts that do not provide such protection.

It would, however, provide the local school board with some funds that are not now provided for this purpose.

The Practice Teaching Bill is one that would mean more to the Canyon System than it would to most districts in Texas. It would provide for the payment of \$200.00 to each cooperating teacher per year and also would provide a \$50.00 a year payment to the school district for supplying the facilities for each student teacher trained. During the present school year 85 college students have received, or will receive, their practice teaching in the Canyon Schools. Besides the modest sum provided for each participating teacher, this bill would provide an additional payment to the school system of \$4,250.00.

House Bill #166 and Senate Bill #165 provides a continuing contract program for teachers and administrative personnel, at the discretion of the school board. It would establish a probationary period before the continuing contract could become effective.

Teachers under continuing contract can be dismissed at the end of any school year or during the school year for just cause. The procedure for such dismissals include a hearing and permits appeals to the Commissioner of Education and the courts as outlined in the bill.

The Minimum Salary Bill provides for increases of \$61.00 to \$100.00 per month for teachers holding degrees. During the school year of 1965-66 the aver-

Connie Brazzil Wins Bake Show

Annual 4-H Better Bake Show was conducted Saturday at the Junior Livestock Building in Canyon with Miss Connie Brazzil capturing first place in the event.

Miss Brazzil, daughter of Mr. and Mrs. John Brazzil, will represent all county 4-H clubs in the Tri-State Fair's 4-H Bake Show in Amarillo during September.

Competition Saturday was limited to yeast rolls and pound cakes, according to Mrs. D. C. Gamble, home demonstration agent. Record books were judged by Argen Draper and Rita Huckert, home demonstration agent and assistant for Deaf Smith County.

The product judges were Janice Lasseter and Jean Wight, home service advisors for Southwestern Public Service. They also presented a program on "Quick Meals" at the afternoon awards ceremony.

Miss Brazzil is an eighth grade student at Canyon Junior High School, where she is a home economics student and listed on the merit honor roll. She is a former president of the Westside 4-H Club, which was recently re-named the Ram-Delles.

Active in 4-H for six years, Miss Brazzil currently serves as president of the County 4-H Council. She has won various 4-H awards including a first place junior division in the dress revue in 1965, a second place in district civil defense in 1964, a public speaking award in district competition in 1965, and has exhibited several years at the Junior Livestock Show, where she has had the grand champion in the sheep division for the past two years.

Other entries in the Bake Show were Marsha Hager, Glenda Hollenstein, Linda Hales, Carolyn Bunn, Millie Hales, Sharon Hinders, Terry Reynolds, Kathy Gist, Jeolyn Crowley, Patty Crowley, Rhonda Hales, Beverly Allen, Nedra Turpin, Debra Johnson, Mary Ann Boehning, and Judy Boehning.

Harry Rucker, area conservationist, explained the eligibility and duties of supervisors and the role of the Soil and Water Conservation districts in Texas.

Zone I of the Palo Duro Soil and Water Conservation district include the northwest corner of Randall County from the north county line south to Farm Road 2219 and from the west county line east to US Highway 87. The city of Amarillo is excluded from the district.

Other local members of the board of supervisors include Charles Conatser, Ed Wieck and Marshall Rockwell.

News Brief

ABOUT 20 MEMBERS of Alpha Tau Omega, social fraternity at West Texas State University, met at Conner Park Wednesday to begin a canvas of the city to treat puddles of water that might breed mosquitoes.

The group, supervised by City Manager Gary Gwyn, treated the water with deisel oil to prevent the hatching of the insects.

CONNIE BRAZZIL is shown with her entry in the breads and pound cake competition at the annual 4-H Better Bake Show. Miss Brazzil, daughter of Mr. and Mrs. John Brazzil, will represent Randall County at the Tri-State 4-H Bake Show in Amarillo in September.

comparable to other school facilities in Canyon.

Board Member J. O. Parker said the economic condition of the community will not permit the building of a new junior high school building.

"It will cost 50 percent more to build a new building," Parker said.

Figures submitted by architects indicate that a new building will cost about one third more than remodeling.

"We want to have the support of the community," said Board President Wesley Cox. "We don't want to get this defeated like happened over at Hereford a few years ago."

"If I were on the school board I'd want to look two or three times before spending \$1 patching up an old building when I could get a new one for \$1.50," said Dr. J. B. Roberts, member of West Texas State University faculty. "If we remodel we'll still have a 50 year old building."

"I hate to see a trend in Canyon toward treating junior high school like a stepchild," said Dr. T. Paige Carruth, dean of student life at WT. "Junior high school kids get left over. The junior high program is just as important as other programs."

Bob Davis of Columbian Securities said he believes Canyon can get a Class A rating for issuing bonds.

Either remodeling or building a new building would give junior high school 1,000 pupil stations, 250 to 300 more than now available. Either course would require about 16 months to completion.

If a new building is constructed, classes will be held in the old building until the new one is ready. If the present facility is remodeled, says School Supt. Huelyn Laycock, it will take some maneuvering but classes will continue in the old building while remodeling is being done.

Laycock said a 12 cent tax increase will be necessary to finance remodeling and a 17 cent increase will be required to finance a new building.

Bonds for remodeling would pay off in 15 years while 19 years would be required on an issue to finance a new building.

Indebtedness of the district as of Aug. 31, 1967 will be \$2,354,000. Valuation of the district is \$51,651,920 and the debt ratio is 4.55 percent.

Building plans will be discussed further at a regular meeting of the school board to be held at 8:30 o'clock next Tuesday night in the board room at Canyon High School.

Southwest. It was then that Haley made a motion that the nominating committee's report be set aside and that the incumbent board members be retained with the addition to Hobart's name.

George Broome, Amarillo, moved that the Haley motion be tabled. The tabling motion was voted down, 29 to 26. Haley's motion then carried 32 to 21.

The membership then voted to revoke a 1963 society constitution amendment dealing with the election of the society's executive board.

This returns the constitution to its status as it was adopted in 1949.

Under the 1949 constitution, five executive board members are named each year from the board of directors. They serve one-year terms on the executive board and may be re-elected. Under the 1963 amendment, executive board members were elected to serve 3-year staggered terms and for one year were not subject to re-election.

Automatically on the executive board are the president, the first vice president, second vice president, executive secretary and the president of West Texas State University.

Haley challenged the 1963 amendment on grounds that a quorum was not present when the society board adopted it.

Haley's challenge touched off a heated debate. "My position is that this resolution was null and void from the beginning," Haley declared.

"If there was no quorum, we've been operating illegally ever since," said Erwin Ochner, Amarillo attorney. "Your point is moot," Haley rejoined.

The membership voted 32 to 19 in favor of Haley's motion to return to the constitution as it was adopted in 1949.

The membership heard reports from various committees and then voted to accept the recently completed \$600,000 wing to the museum.

Dr. James P. Cornette gave a financial report. He said that prior to the meeting, the society lacked more than \$12,000 in funds to match \$340,000 appropriated by the state and \$20,000 donated by Senator and Mrs. Grady Hazlewood toward construction and furnishing the new wing.

Taylor & Foster Friday donated a \$3,000 parcel of real estate and Mr. and Mrs. Arch Hunsley gave a \$4,000 parcel of real estate.

Some \$400 in cash was donated Friday and then Haley announced a gift of \$10,000 to be given in July by a private foundation. This put the building fund over the top.

Canyon High School again next fall.

Earlier this year a 17-year-old newlywed, Mrs. Judy Rae Anderson, entered Canyon Junior High School on a court mandate after being denied admission under a school board policy.

District Judge Gene Jordan concurred with the board in the Anderson case but was reversed by the 7th Court of Appeals. Mrs. Anderson is in the ninth grade.

The school board policy under which Mrs. Anderson was denied admission to school was revised in April.

Mrs. Anderson was married the latter part of December to James Anderson, a student at West Texas State University.

Under the old policy a student could lose as much as a year of school credit. Under the revised policy a student would be barred from school only for the semester during which the marriage takes place.

rist development agency," he said.

He praised the Texas Historical Survey group for putting up historical markers and said that these would also attract tourists.

"We have in Texas more sunshine than Southern California, more water than any state except Alaska and more miles of beaches than Florida," the speaker said.

"You'd better be preparing for tourists in 1968," he went on. He noted that the HemisFair in San Antonio and the Olympics in Mexico will attract tourists to and through Texas.

In a more somber note, Barnes told his listeners that Texas has a high per capita rate of crime. He warned that crime in Texas is increasing five times more rapidly than our population growth.

He said 254 people were murdered in Harris County alone last year and declared that more murders were committed in Houston last year than were committed in England during the same period.

He said we are giving too much attention to young hoodlums and not enough to the hard-working youngsters who make up the bulk of the state's teenagers.

He warned that if Texans do not become more aware of its good youngsters and give them the encouragement they

deserve then Texas may continue to be number 1 in crime. "Texas has a great future," he concluded, "I'm an optimist."

What has been accomplished in the past can be surpassed in the future.

Dr. James P. Cornette, chairman of the Historical Society finance committee, gave a financial report.

Speaker Barnes was presented with an Olive Bugbee wild turkey painting. The painter is curator of art for the Panhandle Plains Historical Museum.

tive message included a statement that "proliferation of governing boards is retarding development of a coordinated state system of higher education designed to achieve excellence."

The governor said the WTSU bill "is not designed to offer the hope for unity, promise of order and a move toward quality which must guide our legislative effort in behalf of Texas higher education."

"Our 22 state senior colleges and universities are now governed by 12 separate boards," the governor went on. "This bill would add a 13th board and would establish a clear precedent for further division and disunity."

He said the bill is at variance with the basic goal of the Coordinating Act of 1965 which created the Coordination Board, Texas College and University System.

Hazlewood is reported to have expressed disappointment over Connally's veto.

Dumas Demons Dump Eagles 12-4

The Dumas Demons clinched at least a tie for the District 1-AAA baseball championship by running their perfect loop record to 5-0 with a 12-4 win over the Canyon Eagles at Babe Ruth Park here Tuesday afternoon.
A seven-run explosion in the second inning did most of the damage to the Eagles and chased starter Tommy Brandt from the mound. Max Sunderman came in to scatter five runs over the last five innings.

Dwayne Gerber connected for a home run in the fourth frame with Yogi Rossi on base, after Galen Davis scored the Eagles' first run in the third inning.
Lon Conner doubled in the seventh and scampered across the plate as Don Howard reached base safely on an error.
Despite the loss, Coach Wayne Turley had compliments for several of his players. "Lon Conner caught everything they hit him in centerfield and continued to give us a hundred percent all the time; Ryckee Sargee did a good job hitting and fielding, and Yogi Rossi did a good job both batting and behind the plate—he threw out three or four baserunners," stated Turley.
Plagued with control problems, the Canyon pitchers were off their best form. Brandt gave up seven runs and hit two batters in only 1 2/3 innings, before Sunderman came in to yield five runs and hit seven batters in 5 1/3 frames.

The Eagles host Hereford Saturday and go to Dumas Tuesday. The Whiteface tilt is slated for 2 p.m. at Babe Ruth Park, while the Eagles go against the Demons there at 4 p.m.

The marriage of Miss Catherine Lee Brannon and Richard Craig Tannahill was solemnized Saturday at Joseph A. Hill Chapel on the campus of West Texas State University.

Rev. Charles Pederson, pastor of the Episcopal University Church, performed the double ring marriage rites.

The bride is the daughter of Master Sergeant and Mrs. Louis M. Brannon of Chanute Air Force Base, Illinois. Her husband's parents are Mr. and Mrs. C. W. Tannahill of Friona.

Music for the occasion was provided by Miss Nancy Allen of Crosbyton, soloist, a cousin of the bridegroom; Miss Patricia Tannahill, sister of the bridegroom, organist, and Sheryl Tannahill, sister of the bridegroom, pianist. Vocal selections included the "Lord's Prayer" and "Whither Thou

Goest". The altar was decorated with white gladioli, mums, stephanotis and altar candles. Family pews were marked with white silk rope and accented with greenery. White satin kneeling pillows were used at the altar.

Elizabeth Ann McNutt of Amarillo served as maid of honor. She wore a floor length gown of pale blue peau de soie styled with a straight skirt of unpresed pleats and featuring a matching jacket with bracelet length sleeves. She carried a nosegay of white roses, carnations and blue ribbons.

The bridegroom's brother, Chris Len Tannahill, served as best man. Ushers were Dave Lee Brannon, a brother of the bride, from Chanute Air Force Base and Charles Fields of Friona.

Given in marriage by her father, the bride wore a floor length gown of white mattebrocade in an English rose pattern. The gown was styled along empire lines with bracelet length sleeves cuffed in self fabric. Her accessories were of white peau de soie.

Her elbow length veil was edged with embroidered alencon

lace attached to a capelet of lillies of the valley and English silk roses. She carried an arrangement of white orchids, carnations and stephanotis atop an ivory fan from Hong Kong which was borrowed from her mother.

Her only jewelry was a diamond pendant, which was a gift from the bridegroom.

A reception honoring the couple was held in St. Andrew's Episcopal Student Center on campus. Guests were registered by Glenda Creech of Midland. The three tiered wedding cake centered the tea table which was accented with blue and white carnations in a silver arrangement.

For a wedding trip to New Mexico, the bride traveled in a pink chanel suit with pale pink and mulberry accessories. Her corsage was an orchid lifted from the bridal bouquet.

The bride is a graduate student at West Texas State University, is an active member of Chi Upsilon chapter of Beta Sigma Phi sorority, and is a member of the Buffalo Gals Service Organization. She is a student senator at the university.

Plans are underway for a day of fishing for Canyon's youngsters at the annual Jaycee Fish Rodeo which has been set for June 3.

Fishing will begin at 10 a.m. and awards will be presented at four o'clock. The judging will be divided into three age divisions, 3-6, 7-10, and 11-14, with plaques being awarded for the largest fish in each division and the largest string of fish.
